Kite Runner Introduction Project

Step 1: Choose a topic from list:
- Islamic Religion and Practices (Sunni and Shiites)
- Afghan Hobbies/Pastimes (including Kite Running/Fighting)
- Climate and Geography of Afghanistan
- Places of Interest in Afghanistan
- Afghan Drug Trade (opium)
- Historical Timeline focusing on Important Events
- Treatment of Afghan Women
- Common Food in Afghanistan
- Holidays, Customs, Traditions, Celebrations

Step 2: Gather information:
You need to utilize a total of 3 sources total. At least one of these sources should be a library database (World History in Context, Britannica, etc.), one should be a link from the Libguide, and the third should be a book.

Step 3: Begin your Works Cited List:
This is an alphabetical APA formatted list of the sources you are using for your project. Use NoodleTools to keep track of your sources and generate your Reference page. See Ms. Padjen in the library if you need help with this application.

Step 4: Create annotated bibliography:
In NoodleTools, write a brief paragraph (3 sentences) describing the source and its importance to your research project.

Step 5: Take notes:
Create at least 6 notecards (minimum of 2 from each source) using the google slides template. Make sure to include a direct quote, a paraphrase, and your own thinking for each notecard. You will use them to create your slideshow.

Step 6: Create your Project
Using Adobe Spark and your notecards, you will create a presentation. Include a title slide, at least 6 content slides, and a Reference slide.

Remember to use in-text citations. You need to cite each source at least once. Use citations when you:
- Use an idea from a source, even if you summarize or paraphrase the information.
- Quote directly from the source.

Step 7: Finalize your project
Proofread, make sure everything makes sense, and make sure you are proud of your finished product.
